Re: *Go Bond – 2026 Priority Wall Rev. 1*

Revised Proposal

Dear Mr. DaCosta:

In accord with your request, the following proposal is submitted for your consideration.

*Topographic Survey in accord with Standard of Practice as set forth in Chapter 5J-17.05 FAC pursuant to Section 472.027 Florida Statutes - **Limits per client supplied aerial***

- Establish on-site benchmarks based upon NAVD 88 Datum.
- Obtain sufficient control monumentation, if available, to graphically depict limits of property. This is not a boundary survey.
- Locate all above ground improvements including pavement, curbs, sidewalks, swales, berms, retention areas and above ground evidence of utilities. Obtain rim elevations of sewer and drainage structures, if accessible. Utility locations will include fire hydrants, water valves, meter boxes, vaults and main irrigation valves. Individual sprinkler heads are not included.
- Locate specimen trees 4" diameter and larger, providing common name, diameter and position of trees. The location of shrubbery and landscaping will not be included.
- Obtain spot elevations on an approximate 50' grid with high and low points within the limits.
- Typical limits: centerline of road to 5' beyond right-of-way line
